ALUMINIUM WINDOWS & DOORS

Designed to integrate single and double glazed framing with a hinged door and fixed panel options with single glazed louvers with integrated screens.

Air-Flo Plus

The Air-Flo® Plus 125mm Framing system is purposely designed to provide a total solution for all residential and commercial applications, including fixed lights and hinged doors.

The Air-Flo® Plus 125mm Framing French Door is a 40mm wide panel consisting of a 85mm face as standard. An integrated barrier/security door rebate allows for an overall frame size of 125mm.

Also integrable with the Swan Evo commercial panel to cater for larger panel sizes.

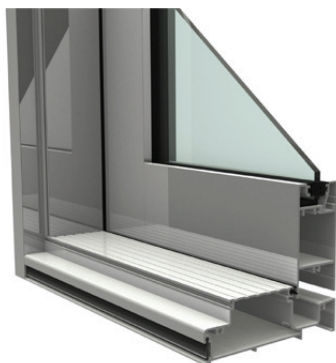

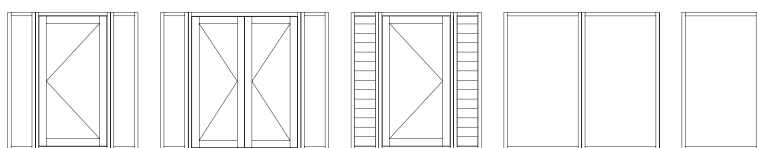

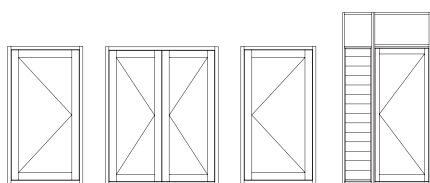

High Performance Hardware

Suited towards the suburban housing and multi-unit residential market, the Air-Flo® Plus 125mm Framing system caters for timber reveals, various coupling, 4 point locking, screening solutions and a full range of glazing options up to 25mm double glazed.

Successfully tested for compliance with Australian Standards AS2047, achieving high acoustic and WERS energy ratings.

Specifying Air-Flo® Plus 125mm Framing ensures the client receives a solid, durable high performance product.

Typical Configurations

Key Features

- Framing options compatible with French/ Hinge door integration
- A complete integrated screened frame offering external security and flyscreen options including Invisi-Gard®
- Suitable for suburban housing and multi-unit residential market
- Suitable to a range of terrain conditions
- Various glazing options for energy compliance
